

Kareem Mostafa Sultan

Senior Frontend Developer | Angular Expert | AI-Enhanced Engineering Advocate

Tel: +201550829268 – Mail: kareemmostafa77@hotmail.com

Portfolio: KareemMostafa77 – GitHub: [KareemMostafa77](https://GitHub/KareemMostafa77) – LinkedIn: [KareemMostafa77](https://LinkedIn/KareemMostafa77)

SUMMARY

Senior Frontend Engineer and **Angular Architect** with **6+ years** of experience building scalable enterprise platforms. Led system revamps, **optimized performance** and implemented **reusable UI architectures** across multi-client systems. Experienced in advanced **Git strategies**, CI/CD automation, and engineering best practices to support scalable team workflows. Actively leveraging **AI-assisted development tools** to accelerate delivery and improve code reliability. Recognized for leadership, mentoring, and cross-team technical impact.

EXPERIENCE

Senior Frontend Developer

THIQAH Business Services

Dec 2023 – Present

Saudi Arabia (Egypt Offshore) – Hybrid

- Led frontend architecture design using modular Angular patterns, feature-based structure, and shared core libraries to ensure scalable and maintainable enterprise applications.
- Built reusable UI component systems and standardized frontend foundations adopted across teams to reduce duplication and accelerate delivery.
- Defined Git workflows and branching strategies to support collaborative development, clean releases, and predictable deployment cycles.
- Conducted pull request reviews, enforcing coding standards, improving code quality, and mentoring engineers through architectural and implementation feedback.
- Drove performance optimization through refactoring, lazy loading, removal of legacy dependencies, and application of modern Angular best practices.
- Integrated analytics and UX insight tooling to enable data-driven product decisions and improve overall user experience.
- Applied AI-assisted development workflows to increase productivity, enhance code quality, and streamline repetitive engineering tasks.
- Mentored frontend developers on architecture, performance tuning, and optimization techniques, contributing to team growth and engineering maturity.
- Collaborated closely with backend, design, QA, and product teams to deliver high-quality features across multiple initiatives.
- Participated in hiring processes and provided cross-team technical support, contributing to shared frontend standards and internal documentation.

Senior Frontend Developer

Kashier Payment Solution

Oct 2023 – Dec 2023

Egypt – Hybrid

- Collaborated with product teams to enhance UI consistency across portals
- Gained experience integrating frontend features with third-party logistics and shipping systems

MEAN Stack Developer

Confidential Company

Sep 2022 – Sep 2023

Egypt – Onsite

- Developed full-stack web solutions and APIs using Angular, Node.js, and Express.js
- Acted as technical liaison between stakeholders and engineering teams, leading requirements analysis
- Delivered scalable business applications across finance, utilities, and administrative sectors

Frontend Developer Easy Way Web

Jun 2020 – Aug 2022
France & Egypt – Remote

- Worked on both web and cross-platform desktop applications using Electron and Angular
- Led frontend development and UI implementation across web and Electron-based desktop applications
- Worked cross-functionally to transform business logic into performant, user-friendly interfaces
- Assumed partial leadership in project planning and code review processes

Frontend Developer Volcano Agency

Nov 2019 – Apr 2020
Egypt – Onsite

- Worked on web and cross-platform mobile apps using Ionic and modern frontend technologies
- Contributed to commercial website and mobile app development using modern UI practices
- Gained hands-on experience with cross-platform frameworks and client interaction
- Played a role in transforming client requirements into functional, attractive interfaces

Freelance Projects

- Created a dynamic and reusable UI component system suitable for multiple platforms including CMS solutions
- Delivered full frontend solutions for trading and financial platforms, managing data-heavy modules and real-time interaction features

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, Angular, Ionic, Electron, Angular Material, Bootstrap, SASS, Pug.js, jQuery, RxJS, Tailwind, NgPrime

Backend (MEAN): Node.js, Express.js, MongoDB, REST APIs, SQL, MySQL, PHP, Laravel (basic)

Tools & DevOps: Git, GitHub, GitHub Copilot, Cursor, Figma (basic), CI/CD, Docker, Postman, Swagger

Cloud & AI: Azure AI Fundamentals, Prompt Engineering, Copilot AI Development

CERTIFICATIONS

- **GitHub Copilot Beginner to pro – AI for Coding & Development** (Udemy) – Jan 2026
- **AI for Developers with GitHub Copilot, Cursor AI & ChatGPT** (Udemy) – Jun 2025
- **Prompt Engineering for Web Developers** (Coursera / Scrimba) – Jun 2025
- **Microsoft Certified: Azure AI Fundamentals** – Dec 2024
- **Full Stack Web Development Diploma** – Route IT Training Center – Nov 2019

EDUCATION

Full Stack Web Development Diploma Route IT Training Center

Jun 2019 – Nov 2019
Cairo, Egypt

B.Sc. in Mathematics & Computer Science Faculty of Science, Ain Shams University

Sep 2012 – Jun 2016
Cairo, Egypt

LANGUAGES

- Arabic: Native
- English: Professional Working Proficiency
