## SUMMARY

---

Experienced and impact-driven **Senior Frontend Developer** with 5+ years delivering scalable, high-performance web and cross-platform applications using Angular, Ionic, and Electron. Proven ability to lead frontend architecture, optimize UI performance, and mentor developers across enterprise environments. Skilled in integrating AI-enhanced tools like GitHub Copilot and Cursor to accelerate development workflows. Strong communication and analytical skills gained through direct client interaction and leading product revamps. Passionate about clean code, user-focused design, and continuous growth. Now seeking senior-level or lead frontend roles in innovative, global tech teams where I can drive scalable frontend architecture and mentor high-performing developers.

## EDUCATION

---

### Full Stack Web Development Diploma

Route IT Training Center

Jun 2019 – Nov 2019

Cairo, Egypt

### B.Sc. in Mathematics & Computer Science

Faculty of Science, Ain Shams University

Sep 2012 – Jun 2016

Cairo, Egypt

## EXPERIENCE

---

### Senior Frontend Developer, THIQAH Business Services – Saudi Arabia – Hybrid

Dec 2023 – Present

- Leading UI revamp initiatives with a focus on performance, modular architecture, and maintainability
- Mentoring frontend developers, sharing optimization techniques, and promoting team growth
- Driving integration of analytics and UX insights tools to improve product quality and customer experience
- Contributing to company-wide hiring processes and internal documentation best practices

### Senior Frontend Developer, Kashier Payment Solution – Egypt – Hybrid

Oct 2023 – Dec 2023

- Collaborated with product teams to enhance UI consistency across portals
- Gained experience integrating frontend features with third-party logistics and shipping systems

### MEAN Stack Developer, Shoaa Company – Egypt – Onsite

Sep 2022 – Sep 2023

- Developed full-stack web solutions and APIs using Angular, Node.js, and Express.js
- Acted as technical liaison between stakeholders and engineering teams, leading requirements analysis
- Delivered scalable business applications across finance, utilities, and administrative sectors

## **Frontend Developer (Mid-Level), Easy Way Web – France & Egypt – Remote**

**Jun 2020 – Aug 2022**

- Worked on both web and cross-platform desktop applications using Electron and Angular
- Led frontend development and UI implementation across web and Electron-based desktop applications
- Worked cross-functionally to transform business logic into performant, user-friendly interfaces
- Assumed partial leadership in project planning and code review processes

## **Frontend Developer (Junior-Level), Volcano Agency – Egypt – Onsite**

**Nov 2019 – Apr 2020**

- Worked on web and cross-platform mobile apps using Ionic and modern frontend technologies
- Contributed to commercial website and mobile app development using modern UI practices
- Gained hands-on experience with cross-platform frameworks and client interaction
- Played a role in transforming client requirements into functional, attractive interfaces

## **Freelance Projects**

- Created a dynamic and reusable UI component system suitable for multiple platforms including CMS solutions
- Delivered full frontend solutions for trading and financial platforms, managing data-heavy modules and real-time interaction features
